*Response to Arguments*

1. Applicant's arguments, filed September 30, 2004, with respect to the amended version of the claims have been fully considered and are persuasive. The previous rejections of said claims has been withdrawn.

*Drawings*

2. The drawings are objected to because they fail to meet the following requirements of CFR § 1.84:

*§ 1.84 (g) Margins:*

Each sheet must include a top margin of at least 2.5 cm. (1 inch), a left side margin of at least 2.5 cm. (1 inch), a right side margin of at least 1.5 cm. (5/8 inch), and a bottom margin of at least 1.0 cm. (3/8 inch). These margins are not present in Figures 3, 4A, 4B, 5A-1, 5A-2, and 5B.

*- § 1.84 (p) (3) Numbers, letters, and reference characters:*

Numbers, letters, and reference characters must measure at least .32 cm. (1/8 inch) in height. They should not be placed in the drawing so as to interfere with its comprehension. Therefore, they should not cross or mingle with the lines. This objection particularly applies to Figures 2A, 4A, 4B, 5A-1, 5A-2, and 5B

Art Unit: 2644

**Allowable Subject Matter**

3. **Claims 1-17** are allowed.

The following is an examiner's statement of reasons for allowance:

In the examiner's opinion, it would have not been obvious to incorporate at least the gateway controller, ITS data bus, and the IR interface of the reference of Kirson into a device adapted to be positioned or installed in a vehicle as an aftermarket product, as recited by independent Claims 1 and 9, when such limitations are considered in regards to each and every other limitation recited in the respective claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

**Conclusion**

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
